1. To establish rules and regulations and create a single drilling and production unit for the exploration for and production of gas and condensate, such unit to be designated Y-2 RG SUA;
2. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the proposed unit, with each tract sharing in unit production on a surface acreage basis of participation;
3. To designate The Wiser Oil Company - Olympia 9 No. 1 Well as the unit well for the proposed unit;
4. To designate The Wiser Oil Company as the unit operator for the proposed unit;

5. To provide that any future wells drilled to the Y-2 Zone within or outside of the proposed unit should be located in accordance with the spacing provisions of Statewide Order No. 29-E;
6. To provide that the Commissioner of Conservation should be authorized to reclassify the reservoir, by supplemental order without the necessity of a public hearing, if the producing characteristics of the reservoir change and evidence to justify such reclassification is submitted to and accepted by the Commissioner of Conservation; and
7. To consider such other matters as may be appropriate and justified by the evidence presented at the hearing.

The Y-2 Zone in the DeQuincy Field, was previously defined in Office of Conservation Order No. 195-B-4, effective April 20, 2005.
